The quality of your life

Depends on your ability to deal with CHALLENGES! - T. Robins

Become a P.P.S.

(Professional Problem Solver)

1 mittelgroßer Krautkopf wird aufgehoben und mit etwas Fett und Salz gedämpft. Dann fügt man 3 Eßlöffel Semmelbrösel daran und rührt die Masse vom Feuer. Wenn die Masse ausgekühlt ist, gibt man ungefähr die halbe Menge Mehl auf ein Brett und wirkt einen strengen Nudelteig daraus. Man wickelt zu einer langen Wurst und schneidet von dieser die Nudeln, die in Salzwasser gekocht und mit gerösteten Semmelbröseln übergossen werden.

Krautwickel mit Fisch

Von 1 großen Krautkopf werden die Blätter abgenommen und vorsichtig in Salzwasser abgewellt; dann legt man sie auf ein Brett zum Auskühlen. Inzwischen treibt man $\frac{1}{2}$ kg Fisch durch den Fleischwolf und fügt etwas gewaschenen Speck, 2 milchgeweichte und ausgedrückte Semmeln, gehackte Zwiebel, ein wenig Salz, Pfeffer, Majoran und Mehl hinzu, so daß die Masse vom Händchen bekommt. Dann füllt man sie in die Krautblätter ein, bindet diese mit Fäden zu und läßt sie nebeneinander liegend in einer Bratpfanne durchbacken. Man gibt eine Senf- oder eine Tomatensoße dazu.

Whatever problem you
may have

...someone else had it
already!

What did they do?

Sauerkraut wird mit Speckwürfeln gar gekocht. Man gibt
geschnittene Steinpilze oder Reherl hinein und läßt sie darin gar
streut man reichlich Petersilie auf das mit wenig Zitronensaft
abgeschmeckte Kraut.

Kraut und Raus,

Dr Rodafinos is a Behavior Change Specialist, an Author and a Keynote speaker. He has spent the last 20 years working as an Academic Psychologist, including long posts as Program Director for Social Sciences, Head of Psychology Department, and Professional Trainer.

We are all born beautiful babies, adorned by parents and friends, with potential to become real princes or princesses. However, at some stage, around 30 - for some later, for others even earlier - most of us, instead of "would-be princes," we become "frogs," as a result of the bad habits (poor nutrition, maladaptive thinking, bad companies, etc.) that we adopt along the way... and so on.

How can one revert to being a prince once again? One solution is to wait for the kiss of the princess. The other is to read this book. Most people would like to change one or more things in their lives. In fact, when examining their lives, very few individuals have difficulty finding an area they would like to improve.

Based on the theories of learning and cognitive-behavioural psychology, Dr Rodafinos describes goal setting and behaviour modification techniques that have been applied effectively in educational settings, fitness centers, business organizations, hospitals, mental health institutions, and prisons.

If you are not happy with yourself or with the conditions in your life, do not lose hope, because you can change - as long as you follow certain steps. Yet, if you do not change your direction, you're going to end up where you're heading (saying ... made in China).

An hourglass with red sand is positioned in the center of the frame. The top bulb is filled with a vibrant red liquid, resembling wine, which is dripping through the narrow neck into the bottom bulb. The bottom bulb is partially filled with red sand. The background is a blurred, light-colored surface with a grid-like pattern. Change the way you greet others: Here are 160 ways to respond to "Hi! How are you?"

I admit it. I have a soft spot for salutations. And I am tired of routine replies: 'Good, thank you' or 'Not too bad, yourself?'

Here is an idea! Use the 'SENTIMENTABLE,' a collection of random but creative responses to the No 1 question we have to answer (a zillion times) each day:

- Hi, how are you?

Next time someone asks you, pick a word from the table (view next page) to reply:

- Terrific, incredible, groovy, buzzing, dazzled!

The drill can instantly shift your current mood (to positive), connect with co-workers, peers and family ... AND generate a few giggles! It is also a taster that will motivate you to read more on managing your and others' emotions (read more here).

Behaviour Change Contract

Contemplating making a change in your life?

Use this simplified seven step method (adapted from Ziglar, 1987). Select your goal. Do not just think about it - write it down using the free online web form below. Tailor it to your needs, choose your rewards/punishments, decide on your plan, set a deadline and submit the form.

You and your nominated 'witness' will receive a copy in your email.

Enjoy the process and your new self!

* Excerpt from the book 'Prince to Frog ... and vice versa. Applied psychological techniques to change yourself - or others.'

Behaviour Change Contract

Use this form to record your plan and agreed actions. The contract will be emailed to each email address contained in it. Once sent the data will be cleared. If you achieve your goal the Genie will grant you three bonus wishes!
